## We're here for you

Columbia Gas offers a variety of options to help with energy bills and paying down past due balances. At the first sign of trouble paying your gas bill, call Columbia Gas at **1-800-543-8911** to explore ways to stay connected. We have an array of payment assistance programs for eligible customers. Learn more about the programs and qualifications by visiting **ColumbiaGasVA.com/Assistance**.

## Work zone safety

As the weather improves, drivers can expect to see more road construction projects.

Staying alert, slowing down and minimizing distractions are keys to personal safety and the safety of work zone crews. For more information about our focus on safety, please visit **ColumbiaGasVA.com/Safety**.

## Spring cleaning

Now is the time to clear any debris, overgrown shrubs or landscaping near the gas meter on your property.

Keeping your meter visible at all times makes it accessible for maintenance or in the event of an emergency. Learn more at **ColumbiaGasVA.com/Exterior**.

## Age & Income Program

Community Housing Partners Energy Solutions, a 501c3 non-profit, is partnering with Columbia Gas of

Virginia to provide no-cost energy savings measures to qualifying residents and multifamily properties to lower utility bills and enhance safety and comfort for eligible homeowners and renters. **ColumbiaGasVA.com/AgeIncome**.

## Know Your Home – Flooding and your natural gas service

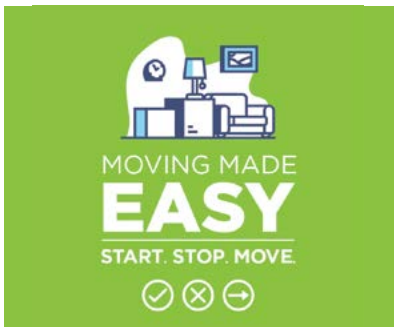

- In the event of a flood, turn off electrical power to each appliance and leave it off.
- If the natural gas is shut off at the meter, call us to turn it back on for you.
- If water levels were high enough to cover the gas meter, call us to check your meter and regulator before using your gas appliances. Floodwaters may have shifted your home or caused other stresses, possibly resulting in a natural gas leak.
- If your appliances have been impacted by flooding, do not attempt to place natural gas appliances back in service yourself. A qualified professional should check, clean, repair and test all gas appliances and pipes.

For more information on flooding safety visit [ColumbiaGasVA.com/Flooding](https://ColumbiaGasVA.com/Flooding).

### Start. Stop. Move.

Navigating a change has never been easier. Use our online START. STOP. MOVE. service to make a change 24/7. Whether you're starting a new service, moving a current service to a new address, or want to stop your service altogether, making a change is easy. ### Free online home energy audit

Complete our **free online home energy audit** for personalized recommendations on how to reduce your energy usage. Plus, after you complete it, you could be eligible to **receive a FREE energy efficiency kit** to help you save. Start your audit at [ColumbiaGasVA.com/Audit2025](https://ColumbiaGasVA.com/Audit2025).

### Save with WarmWise home rebates

If you have recently purchased or are planning to upgrade to new qualifying equipment like smart thermostats, furnaces, boilers, clothes dryers, water heaters, fireplaces, windows doors and skylights, you might be eligible for significant rebates. Learn more at [ColumbiaGasVA.com/Rebates2025](https://ColumbiaGasVA.com/Rebates2025).

- **Red Tag** - These are used to identify and communicate an unsafe condition that needs to be corrected as soon as possible. They are placed on natural gas appliances by our service technicians. RED TAGS have CLEAR AND CONCISE ACTIONS to take if a RED TAG CONDITION is found in your home or business.
- **Know Your Lines** - If you are modifying piping inside a structure, always hire a qualified professional. It is important to trace lines to ensure you know the contents. In the event you were to introduce other contents (water, air, etc.) to a gas line, it may potentially create a hazardous situation and cause service interruptions to you and your neighbors.
