High Efficiency Gas Furnace (Tier 1) (AFUE >= 90%)					\$300		
High Efficiency Gas Furnace (Tier 2) (AFUE >= 95%)					\$400

Your contractor should provide you with documentation showing the model number and serial number of the equipment that was installed. If you cannot find the information on your invoice or other paperwork, then check on furnace/boiler itself. Furnace or boiler have a "name plate" with the model number and serial number. This name plate can be found on the outside of the equipment, usually as a sticker on metal plate. It may be possible that your furnace or boiler's name plate is located inside of the furnace or boiler. If this is the case, DO NOT open your furnace or boiler. If you cannot easily locate the model number, contact the contractor who installed the equipment and ask them for information.
